To my wife and child, without whom this thesis would have already been finished one year earlier.

Abstract of Dissertation

Rocks Are Really, Really Old

Here is the abstract.

Table of Contents

Acknowledgments	iv
Abstract of Dissertation	vi
List of Figures	viii
List of Tables	ix
1 Introduction	1
1.1 Background	1
1.2 More Background	1
1.3 Model	1
1.4 Motivation	1
2 Model of Rock	2
2.1 Model 1	2
3 Second Model	3
3.1 This is the second model	3
4 Result	4
4.1 Rock result	4
5 Discussion	5

List of Figures

4.1	Rock photos	4
-----	-----------------------	---

List of Tables

2.1	Rock table	2
-----	----------------------	---

Chapter 1

Introduction

1.1 Background

Some background.

1.2 More Background

More background.

1.3 Model

Here is the model.

1.4 Motivation

Here is the motivation.

Chapter 2

Model of Rock

2.1 Model 1

Here is the equation 2.1 for **RBL**, *i.e.*, Rock Blasting Law [1].

$$s = \sqrt{\frac{\sum (x_i - \bar{x})^2}{n - 1}} . \quad (2.1)$$

which implies that table 2.1.

Rock	Col1	Col2	Col3
1	6	87837	787
2	7	78	5415
3	545	778	7507
4	545	18744	7560
5	88	788	6344

Table 2.1: Rock table

Chapter 3

Second Model

3.1 This is the second model

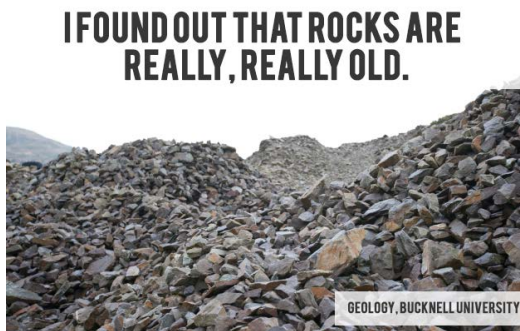

The second model is here.

Chapter 4

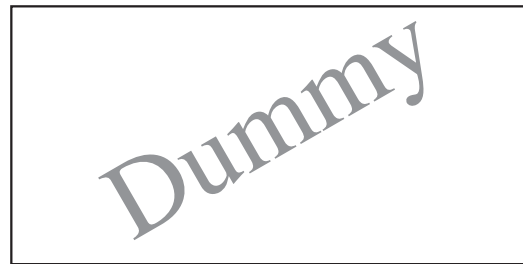

Result

4.1 Rock result

here is the result Figure 4.1.

(a)

(b)

Figure 4.1: Rock photos

(a) Rock and (b) eps dummy figure

Chapter 5

Discussion

Here is the discussion.
